

THE
NATIONAL
CHILDREN'S CHOIR
of GREAT BRITAIN

Re:Sound

Thank you very much again ... for your commitment and enthusiasm to making singing so enjoyable and such an important part of life.

It was a truly inspirational experience for us all!

For me as conductor and music teacher, the session was incredibly useful and I learnt a great deal from watching and listening to Suzzie – I only wish I had her energy and charisma!

...the method of encouraging decision making via/and creativity was excellent - I can see so many other life skills developing through these ideas that run far deeper than purely singing.

One of the children told me afterwards that 'that was the best singing I have ever done!' and she informs me she is going to be a singing teacher when she grows up!

The singing and rhythms were running through their bodies and it was pure joy to share in the fun. It was electrifying!

The NCC song workshop in Exeter proved that with inspirational teaching and inspired piano accompaniment, even the youngest of children will perform well beyond their normal boundaries, resulting in very high levels of cohesion and contribution. A privilege to witness!

After the workshop ... the children came back to class enthused and keen to teach their friends the songs!
